

Control Valve

PRODUCT CATALOGUE

Electric Control Valve with Handwheel

Specifications

【Size Range】DN30-DN250

[Body Material] SS304, SS316

【Operating Pressure】10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Manual/Automatic Switch

Electric High-Temperature Steam Control Valve

Specifications

【Size Range】DN15-DN200

[Body Material] ASTM A216 WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] 4-20mA Analog Control

Electric Sleeve Regulating Valve with Handwheel

Specifications

【Size Range】DN30-DN400

【Body Material】 ASTM A216 WCB SS304, SS316

【Operating Pressure】10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

【Control Model】 Digital Control

Electronic Electric Control Valve

Specifications

[Size Range] DN50-300

[Body Material] ASTM A216 WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Analog Control

Explosion-Proof Electric Actuated Control Valve

Specifications

【Size Range】DN25-400

[Body Material] ASTM A216 WCB SS304, SS316

【Operating Pressure】10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

【Control Model】4-20mA Digital Control

Electric Three-Way Control Valve

Specifications

【Size Range】DN20-500

[Body Material] ASTM A216 WCB SS304, SS316

【Operating Pressure】10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

【Control Model】 Digital Control

Electric Temperature Control Valve

Specifications

[Size Range] DN50-DN400[Body Material] WCB SS304, SS316[Operating Pressure] 10-100Bar[Operating Temperature] 425°C[Flange Standard] GB/ANSI/JIS/DIN

【Control Model】4-20mA Digital Control

Pneumatic Stainless Steel Control Valve

Specifications

[Size Range] DN20-DN300
[Body Material] WCB SS304, SS316
[Operating Pressure] 10-100Bar
[Operating Temperature] 425°C
[Flange Standard] GB/ANSI/JIS/DIN
[Control Model] Air-to-Open / Direct Acting

Pneumatic Fluorine Lined Control Valve

Specifications

[Size Range] DN15-DN150
 [Body Material] WCB SS304, SS316 Fluorine Lined
 [Operating Pressure] 10-100Bar
 [Operating Temperature] 425°C
 [Flange Standard] GB/ANSI/JIS/DIN
 [Control Model] On-Off Control

Pneumatic Control Valve with Digital Display

Specifications

【Size Range】DN15-DN150

[Body Material] WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Air-to-Open / Direct Acting

Pneumatic Control Valve High Temperature Model

Specifications

【Size Range】 DN20-DN300

[Body Material] WCB SS304, SS316

【Operating Pressure】10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Air-to-Open / Direct Acting

Pneumatic Three-Way Control Valve

Specifications

[Size Range] DN30-DN400

【Body Material】WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Air-to-Open / Direct Acting

Self-Operated Flow Control Valve

Specifications

[Size Range] DN15-DN200
[Body Material] WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Self-Actuating Control

Self-Operated Temperature Control Valve

Specifications

【Size Range】DN20-DN300

【Body Material】WCB SS304, SS316

[Operating Pressure] 10-100Bar

【Operating Temperature】425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Bulb & Capillary Control

Self-Operated Pressure Regulating Valve

Specifications

【Size Range】DN30-DN400

【Body Material】WCB SS304, SS316

[Operating Pressure] 10-100Bar

[Operating Temperature] 425°C

[Flange Standard] GB/ANSI/JIS/DIN

[Control Model] Spring-Loaded Control
